Общие сведения

I am a beginner front end developer. I got acquainted with web development in June 2018. I started with the usual layout and now interested in growing into a full-fledged developer. Every day I learn something new and consolidate the material covered. Responsible and purposeful, and most importantly - with burning eyes and a desire to improve skills and develop.

Опыт работы

ЗАО "Юнифуд"
Оператор ПК
август 2017 - Present
МИНСК
